

Waste Management and Recycling

Through our Reclaimed Energy Division, Superior provides the complete resources to assure customers that their spent materials will be professionally processed in compliance with all governmental and environmental regulations.

Professional

As a Part B permitted facility, our Reclaimed Energy Division provides waste management and recycling services. Located in Connersville, Indiana, our well-trained staff ensures this state-of-the-art Treatment Storage and Disposal (TSD) facility is well maintained and operated at the highest safety level.

Superior's expertise is in the recovery of spent solvents from industries that include:

- Automotive
- Chemical Manufacturing
- Composites Fabricating
- Paints and Coatings
- Pharmaceutical
- Printing

Customers who recycle enjoy such benefits as:

- Decreased Virgin Solvent Usage
- Decreased Disposal Costs
- Decreased Regulatory Costs
- Conservation of Natural Resources

Reclaimed Energy has a complete laboratory to verify inbound waste and to ensure the integrity of the recovered solvent that is returned to the customer. Through our environmentally sound practices and modern facilities, you can be assured that waste is being managed in the most eco-friendly way possible.

Waste Management and Recycling:
